Reference letter

We have been organizing these retreats for the past 4 years and we are confident that we can make a reliable assessment of EPPC and especially for its facilitators, Mr. Erald Pashaj and Ms. Dalina Gjicali.

Erald was involved in all retreat details such as Activity Concept, Preliminary Meetings, Logo & Design, Organization Travel Details, Material Development, etc.

During the retreat due to Erald's and Dalina's contribution our retreat session were lively and energetic, staff was not only involved, but inspired to produce ideas to increase our business towards new venues.

We felt that they were very punctual with time and all topics were covered, and yet they added the necessary touch of fun by including social games that contributed towards team-building.

We were very satisfied by EPPC expertise, led by Erald as the main facilitator and supported by Dalina.

We are contracting them again for the same type of event this year.

Sincerely,
